

POWRMATIC, Inc.

Product Line

Ceiling-suspended unit
(Vertical available)

CA/MA SERIES

**Indirect-fired Air Heaters/
Make up Air Units**

200,000 - 4,000,000 BTU/HR
2,650 - 50,000 CFM

**Oil, Gas, or Combination
Oil/Gas fired**

For use indoors or outdoors
in horizontal or vertical
models: applicable to
larger size industrial and
commercial applications.

TE SERIES Air Turnover

Indirect-fired Thermal Economizer Units

300,000 - 4,000,000 BTU/HR
10,000 - 150,000 CFM
5-220 Tons DX/chilled water cooling available.
Oil, Gas or Combination Oil/Gas-fired

Upright indoor models for heating. Especially
designed for large factory and warehouse
areas. No ceiling stratification of heat with
large volumes of heated air moved
economically and efficiently.
Heat exchanger is fully warranted for 30 years.
Make-up air available as an option
Unit can be supplied as weatherproof.

UH SERIES

Oil-fired Unit Heaters

50,000 - 450,000 BTU/HR
115/1/60 VOLTAGE

Oil-Fired only

The UH Series units are
the vented type designed
for space and
supplemental heating in
industrial and commercial
applications.
Excellent for small shop or
garage areas.

DH SERIES

**Indirect-fired
Duct Heaters**

200,000 - 4,000,000 BTU/HR
3,000 - 50,000 CFM
Oil or Gas fired

Horizontal or vertical
models for use indoors or
outdoors for air
conditioning/heating or
make-up air systems.

CIRC-AIR Air Turnover

320,000 BTU/HR output 10,000 CFM or
700,000 BTU/HR output 20,000 CFM
30% more efficient than Unit Heaters
Single point connection
115/1/60 Voltage
Available in Oil, Natural Gas, or L.P. firing

*This unit
is in
stock.*

GA SERIES

**Direct-fired Make-up
Air Units**

3,000 - 70,000 CFM
Gas-Fired only

Horizontal or vertical units
for indoor or outdoor
applications. These units
are designed to replace or
add fresh air to buildings.
