

THE STANDARD OF EXCELLENCE IN HEATING, COOLING & AIR CLEANING EQUIPMENT FOR THE COMMERCIAL AND INDUSTRIAL MARKET

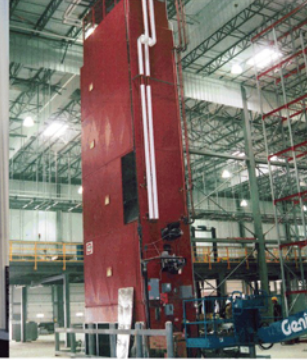

20 TONS DX WITH  
ELECTRIC HEAT

220 TONS  
CHILLED WATER

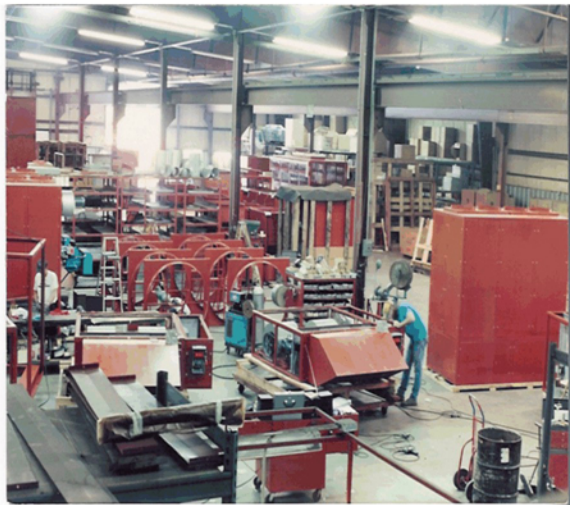

4125 MBH  
WEATHERPROOF  
HEATING UNIT

200 TONS DX  
WITH GAS HEAT

## DESIGN BUILD

POWRMATIC SPECIALIZES IN HEATING, COOLING, AND VENTILATING LARGE SPACES ( FACTORIES, WAREHOUSES, DISTRIBUTION CENTERS, SPORT FACILITIES, ETC. ). OUR AIR TURNOVER UNITS HAVE BEEN USED TO HEAT FACILITIES UP TO 250,000 SQ. FEET PER UNIT AND OUR COOLING UNITS UP TO 100,000 SQ. FEET PER UNIT. OUR ENGINEERING STAFF OFFERS A COMPREHENSIVE EVALUATION ON EVERY PROJECT SO THAT WE CAN OFFER THE BEST COMPETITIVE SOLUTIONS FOR YOUR PROJECTS.

## BENEFITS OF ATU'S

1. LOWER INSTALLATION COST
2. REDUCED ENERGY CONSUMPTION
3. CONDENSATION CONTROL
4. EVEN TEMPERATURES
5. LOWER MAINTENANCE COST
6. BEST WARRANTY IN THE INDUSTRY
7. IMPROVED EMPLOYEE RELATIONS
8. MAKE-UP AIR CAN BE ADDED
9. HEATS UP TO 250, 000 SQ. FT. PER UNIT
10. COOLS UP TO 100,000 SQ.FT. PER UNIT
11. NO DUCTWORK

Powrmatic encourages an energy analysis on most projects. We have found that in most cases we can drop energy costs between 50% and 70% on heating and about 50% on cooling projects. Along with competitive pricing on installations, these energy figures will help you in securing the project. When the building is already existing a Powrmatic representative can make a site visit to the facility to provide accurate recommendations on equipment sizing and locations.
